Board of County Commissioners
315 South Fourth Street
Hamilton, Montana 59840

Dear County Commissioners,

The Rotary Club of Hamilton is pleased to have "adopted" the county's Blodgett Park, and we look forward to working together to construct improvements to the park. As you know, Rotary is a volunteer organization dependent upon community contributions to fund our public service projects.

We have applied to the Ravalli County Department of Environmental Health for a septic system permit that would provide for the construction of a more modern and aesthetically appropriate and healthful rest facility. Given the public benefit of this facility and the improvement it would represent to the county's park, we respectfully request that the Board of Commissioners consider waiving the \$225.00 permit fee.

We very much appreciate your favorable consideration of this request. Thank you.

Yours respectfully,

A handwritten signature in blue ink, appearing to read "Jeff Wolfe".
